## Science 8 – Freshwater and Saltwater Systems

Outcome	Activity title / description	Notes	Non- Consumable	Consumable materials	School provided materials
			materials		
1	Testing Water quality	Similar to SA p. 324	4x250 mL beakers,	Water samples,	Water samples
			3 test tubes, rod	filter paper,	
			and base, ring	bromothymol	
			clamp, funnel, TDS	blue, soap flakes,	
			meter	pH paper	
1	Salt into Fresh Water	See SA p. 346	bowl	Plastic bags, bag	
				ties	
2	Stream Flow	See SA p. 356	Stream table / gutter,	Sand / gravel, paper	water
			plastic tubing,	towels, sponges	
			buckets and pails		
3	Pond Biodiversity		Microscopes, blank		Sample of pond
			slides, eye dropper,		water
			magnifying lens,		
			invertebrate		
2	Characia a Matau Ovalitu	C CA 207	classification guide	Duine abaine and	Manking to a
3	Changing Water Quality	See SA p. 387	600 mL beakers,	Brine shrimp, sea salt, paper, bottled	Masking tape
			stirring rod, 1mL measuring spoon,	water (non-	
			magnifying lens.	chlorinated)	
			magnifying iens.	chiormateuj
