## Science 9 – Unit A Biological Diversity

| Outcome | Activity title / description                                     | Notes             | Non- Consumable materials                                 | Consumable materials                                                 | School provided materials                    |
|---------|------------------------------------------------------------------|-------------------|-----------------------------------------------------------|----------------------------------------------------------------------|----------------------------------------------|
| 1       | Measuring Variation of Human Traits                              | See SA p. 21      |                                                           |                                                                      | Ruler                                        |
| 1       | Flower Variation – Adaptations for Pollination                   |                   | Scalpel, tweezers,<br>dissecting tray,<br>magnifying lens | Flowers                                                              |                                              |
| 1       | Protective coloration and Survival                               | See SA p. 22      | tweezers                                                  |                                                                      | Colored paper, scissors                      |
| 2       | Human Variation                                                  | See SA p. 27 + 29 |                                                           |                                                                      | Ruler / measuring tape                       |
| 2, 3    | One Goal, Many Ways:<br>Investigating Reproductive<br>Strategies |                   | Microscope slides of reproductive structures, microscopes | Flower and plant specimens, fungi, moss and lichen specimens         | Print resources                              |
| 2       | Martian Mallow Mobots –<br>Inheritence of Traits                 |                   | ·                                                         | Mashmallows,<br>toothpicks,<br>assorted candy,<br>cheezies, pretzles |                                              |
| 3       | Chromosomes of A Frimpanzee                                      |                   |                                                           |                                                                      | Pink paper, blue<br>paper, tape,<br>scissors |
| 1,4     | Natural Selection and Evolution of Teddy Grahams                 |                   |                                                           |                                                                      | Teddy Grahams,<br>Calculator, Graph<br>paper |
|         |                                                                  |                   |                                                           |                                                                      |                                              |
|         |                                                                  |                   |                                                           |                                                                      |                                              |
|         |                                                                  |                   |                                                           |                                                                      |                                              |
